**The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser** Jason Rosenhouse

Mathematicians call it the Monty Hall Problem, and it is one of the most interesting mathematical brain teasers of recent times. Imagine that you face three doors, behind one of which is a prize. You choose one but do not open it. The host--call him Monty Hall--opens a different door, always choosing one he knows to be empty. Left with two doors, will you do better by sticking with your first choice, or by switching to the other remaining door? In this light-hearted yet ultimately serious book, Jason Rosenhouse explores the history of this fascinating puzzle. Using a minimum of mathematics (and none at all for much of the book), he shows how the problem has fascinated philosophers, psychologists, and many others, and examines the many variations that have appeared over the years. As Rosenhouse demonstrates, the Monty Hall Problem illuminates fundamental mathematical issues and has abiding philosophical implications. Perhaps most important, he writes, the problem opens a window on our cognitive difficulties in reasoning about uncertainty.

### **From reader reviews:**

#### **Glenn Flinchum:**

Book is to be different for every grade. Book for children until adult are different content. To be sure that book is very important normally. The book The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser seemed to be making you to know about other information and of course you can take more information. It is quite advantages for you. The e-book The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser is not only giving you much more new information but also for being your friend when you truly feel bored. You can spend your spend time to read your book. Try to make relationship with the book The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser. You never experience lose out for everything in case you read some books.

#### **Donald Cauley:**

A lot of people always spent their free time to vacation or maybe go to the outside with them household or their friend. Do you realize? Many a lot of people spent they free time just watching TV, or maybe playing video games all day long. If you would like try to find a new activity this is look different you can read the book. It is really fun for you. If you enjoy the book that you read you can spent the entire day to reading a book. The book The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser it is extremely good to read. There are a lot of people that recommended this book. These folks were enjoying reading this book. In the event you did not have enough space to deliver this book you can buy typically the e-book. You can m0ore very easily to read this book from the smart phone. The price is not very costly but this book possesses high quality.

#### **Leroy Moore:**

The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser can be one of your starter books that are good idea. Many of us recommend that straight away because this book has good vocabulary that may increase your knowledge in words, easy to understand, bit entertaining but delivering the information. The copy writer giving his/her effort to place every word into enjoyment arrangement in writing The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser nevertheless doesn't forget the main level, giving the reader the hottest as well as based confirm resource information that maybe you can be one of it. This great information may drawn you into completely new stage of crucial pondering.

#### **Mildred Shaw:**

That e-book can make you to feel relax. This particular book The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser was colourful and of course has pictures around. As we know that book The Monty Hall Problem: The Remarkable Story of Math's Most Contentious Brain Teaser has many kinds or category. Start from kids until young adults. For example Naruto or Private eye Conan

you can read and feel that you are the character on there. Therefore not at all of book are generally make you bored, any it offers you feel happy, fun and rest. Try to choose the best book in your case and try to like reading this.
