Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 2 Microsoft Office System and Servers Team

This book provides information about planning for site and solutions created by deploying Microsoft SharePoint Server 2010. Subjects include business intelligence, site creation, web content management, and enterprise search. The audiences for this book are business application specialists, line-of-business specialists, information architects, IT generalists, program managers, and infrastructure specialists who are planning a solution based on SharePoint Server 2010. This book is part of a set of four planning guides that provide comprehensive IT planning information for SharePoint Server. For further information about planning sites and solutions for SharePoint Server, see Planning guide for sites for Microsoft SharePoint Server 2010, Part 1. Subjects in Part 1 include site security, governance, and enterprise content management. For information about planning the architecture of a SharePoint Server 2010 deployment, see Planning guide for server farms and environments for Microsoft SharePoint Server 2010. For information about planning for capacity and performance in SharePoint Server 2010, see Capacity planning for Microsoft SharePoint Server 2010. The content in this book is a copy of selected content in the SharePoint Server 2010 technical library as of the publication date. For the most current content, see the technical library on the Web.

From reader reviews:

Katherine Anderson:

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to find out everything in the world. Each guide has different aim or goal; it means that book has different type. Some people sense enjoy to spend their time to read a book. They may be reading whatever they get because their hobby will be reading a book. What about the person who don't like reading a book? Sometime, man feel need book once they found difficult problem or perhaps exercise. Well, probably you will need this Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 2.

James Jackson:

What do you in relation to book? It is not important to you? Or just adding material when you really need something to explain what you problem? How about your extra time? Or are you busy man? If you don't have spare time to accomplish others business, it is gives you the sense of being bored faster. And you have spare time? What did you do? Every individual has many questions above. They should answer that question due to the fact just their can do in which. It said that about book. Book is familiar in each person. Yes, it is correct. Because start from on jardín de infancia until university need this specific Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 2 to read.

Bernetta Smith:

The reason? Because this Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 2 is an unordinary book that the inside of the publication waiting for you to snap it but latter it will distress you with the secret it inside. Reading this book close to it was fantastic author who write the book in such incredible way makes the content inside easier to understand, entertaining method but still convey the meaning thoroughly. So , it is good for you for not hesitating having this ever again or you going to regret it. This book will give you a lot of advantages than the other book include such as help improving your talent and your critical thinking means. So , still want to postpone having that book? If I were you I will go to the publication store hurriedly.

Felix Smith:

As we know that book is very important thing to add our expertise for everything. By a book we can know everything we wish. A book is a group of written, printed, illustrated or maybe blank sheet. Every year had been exactly added. This guide Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 2 was filled in relation to science. Spend your time to add your knowledge about your research competence. Some people has several feel when they reading some sort of book. If you know how big advantage of a book, you can truly feel enjoy to read a guide. In the modern era like currently, many ways to get book you wanted.
