The Best Practical Exercises Each Drummer Must Do!: A lot of practical exercises for drummers

Jenny Dolman

Reading is always a problem for drummers of all ages, however I believe that it is not a problem if the basic issues are addressed right from the beginning.

This set of 20 “Reading Practice” sheets is designed to help students learn the basics of reading music, with very little to confuse them, so they can concentrate on reading and counting the note types accurately.

There is quite deliberately no dynamics, accents or articulation markings on them, and they are all in 4/4 time signature. I believe that students can learn these other things independently afterwards, but it is firstly of utmost importance that they know the note types and they can count rhythms correctly first.

Many drum teachers probably disagree with me on this, indeed I would have myself when I first started teaching, however in my experience of teaching drums I have found this to be the most effective way of teaching students to read music.

In this package have also supplied the snare drum solos and reading expansion sheets which deal with dynamics, accents and other time signatures.
