A brilliant guide to one of the most profound changes of our time, *Wikinomics* challenges our most deeply-rooted assumptions about business and will prove indispensable to anyone who wants to understand competitiveness in the twenty-first century.

Based on a \$9 million research project led by bestselling author Don Tapscott, *Wikinomics* shows how masses of people can participate in the economy like never before. They are creating TV news stories, sequencing the human genome, remixing their favorite music, designing software, finding a cure for disease, editing school texts, inventing new cosmetics, or even building motorcycles. You'll read about:

? Rob McEwen, the Goldcorp, Inc. CEO who used open source tactics and an online competition to save his company and breathe new life into an old-fashioned industry.

? Flickr, Second Life, YouTube, and other thriving online communities that transcend social networking to pioneer a new form of collaborative production.

? Mature companies like Procter & Gamble that cultivate nimble, trust-based relationships with external collaborators to form vibrant business ecosystems.

An important look into the future, *Wikinomics* will be your road map for doing business in the twenty-first century.
