*Engaging China* is one of the first books to look at the responses of major international powers to the recent economic growth of China. Anyone interested in the financial fortunes of the Asia-Pacific region cannot afford to ignore the rise of China as an economic power since the 1970s. Economic growth coupled with increased military capability and spreading nationalism have gradually enhanced Chinas international profile. In an interesting mix of the empirical and theoretical, case studies from United States, Japan, Singapore, Taiwan, Korea, Malaysia and Indonesia illustrate Chinas developing position in the Asia-Pacific.
