Object-Oriented Programming Peter Coad, Jill Nicola

The third book in the Coad/Yourdon series on object-oriented programming, this volume uses a series of four comprehensive examples to help readers gradually and gently flip their system-building mind-set into an object-oriented perspective — how to “object think” and program with the two leading object-oriented programming languages — Smalltalk and C++. Contains an OOPL primer, major examples, language summaries, OO patterns, and extensive source code for the major examples. For programmers.
