The I-Search Paper: Revised Edition of Searching Writing Ken Macrorie

This revised and retitled edition of *Searching Writing* includes two additional I-Search papers, one by a teacher, and a new chapter entitled "The Larger Context," which shows how the I Search concept can work throughout the whole curriculum in school and college. As with the first edition, The *I-Search Paper* is more than just a textbook; it's a new form of instructional help -- a *context* book -- that shows students what authority is in matters of learning and invites them to join the author and teacher in the educational movement called "Writing to Learn."

To put this book in the hands of all the students in the course is not only to help them carry out an I-Search but to introduce them in a delightful way to the resources and tools of intellectual inquiry -- but one that never forgets the emotional or physical side of human activity.

This is a rare textbook that treats students as partners in learning. It shows what it is to take charge of one's own learning and suggests that this move is one that productive people keep making throughout their lives.
