"I'm Paris Dipersico and I'm a narcissistic sociopath whose ego is bigger than Kim Kardashian's ass. Boundaries, Respect, Values, and a Conscience...I Lack. I say obnoxious things about fugly creatures (personally, I don't think fat people are real people.)" Wake Up Call is a story of a young boy becoming a bold character, a soul searching for identity, and of a man weaving a rich heritage while finding a place for himself in today's world. It begins with the awkwardness of adolescence, of him trying different addictions and exploiting different sexuality to see where he fits in. "I believe everything is okay, when done in moderation." He says. However, moderation is the track he's far away from. The book brews up the right flavour of drama, emotion, and wit. The author gives hilarious references from the pop culture. Quoting him, "When you are popping pills, chugging gallons of alcohol, and snorting mountains of cocaine, your decision making skills are similar to those of Charlie Sheen, trust me, they are not the brightest." His views and opinions stir up trouble and leave local ideas and morals shaken. Religion, a stigma, something people are afraid to discuss is what the writer has dared to take up and thrashed it down. It brings up issues we all have at one point in time. Although being brought up in a Muslim household, yet he questions the very existence of God and says: "Islam is a religion of 'peace' and Muslims will kill you to prove it." He perceives relationships to be a delusion and believes there is no such thing as monogamy. "Women in my experience are so delusional that it disturbs me. They are these needy, emotionally unstable creatures that want to be hugged, loved, and looked in the eye while those three nauseating words are being said." The writer is judgmental, opinionated, and prejudiced to the highest degree. But the missing piece of the jigsaw falls into the place on reading and analyzing the last chapter. 'The Dark Side of the Moon', explains why he is the way he is. He reminisces about his childhood and how it has turned him into the person he is today. These memories, though backward, are the richest ones he has and maybe these are the ones he actually needs to hold onto in the end.
