The final section of the book offers extensive practical information for formulating and implementing strategic management in the public library setting.

Public libraries must operate in a time of increasing change, both within the library community and throughout the larger social and economic environments in which the library must function. All community libraries, regardless of size, must prepare for the strategic changes that are occurring, such as the National Information Infrastructure and the onrush of electronic information. Planning for change is not enough. Change must be managed strategically, through the library's recognition of its needs and objectives in relationship to the shifting contexts in which it must operate.
