Atsugi Assassins looks at the Central Intelligence Agency (CIA) and their much denied MKULTRA mind-control program. Used unknowingly as a test subject, the author offers insights into how Lee Harvey Oswald was also victimized by the MKULTRA that operated at Atsugi Naval Air Station in Japan. Jensen also exposes the lies and cover-up by the Warren Commission and others, including former CIA Director Allen Dulles and President Lyndon Johnson, in the assassination of President John F. Kennedy. This book exonerates Oswald and shows that he was an honorable Marine and died in what he thought was the line of duty.
