The Atlas to Accompany the Official Records of the Union and Confederate Armies (AKA the War of the Rebellion Atlas) was published as a companion piece to the Official Records of the American Civil War.

The Atlas contains three types of illustrations: maps, illustrations based on photographs, and illustrations and technical drawings.

**Maps:** A total of 156 plates containing maps ranging from small-scale engagements to regional views and date-specific snapshots of long-running sieges like Vicksburg and Atlanta.

**Illustrations based on photographs:** Twelve plates that include images of Charleston Harbor and Ft. Sumter, Missionary Ridge and various elements of mid-nineteenth century warfare.

**Illustrations and technical drawings:** Ten plates containing diagrams of defensive elements (redoubts, redans, and forts, for example), equipment and armaments, uniforms, and flags.

The first two images are a sample of one of the illustrations in the atlas in a small size and then blown up to about 30% of its fully detailed size to help you get an idea of how detailed the images are in the atlas. (The blow up is of frame eight in the first image.)
