Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science)

Dr. Clifford A. Shaffer

Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science)

Dr. Clifford A. Shaffer

With its focus on creating efficient data structures and algorithms, this comprehensive text helps readers understand how to select or design the tools that will best solve specific problems. It uses *Microsoft C++* as the programming language and is suitable for second-year data structure courses and computer science courses in algorithm analysis.

Techniques for representing data are presented within the context of assessing costs and benefits, promoting an understanding of the principles of algorithm analysis and the effects of a chosen physical medium. The text also explores tradeoff issues, familiarizes readers with the most commonly used data structures and their algorithms, and discusses matching appropriate data structures to applications. The author offers explicit coverage of design patterns encountered in the course of programming the book's basic data structures and algorithms. Numerous examples appear throughout the text.

From reader reviews:

Jerry Osbourne:

Why don't make it to be your habit? Right now, try to ready your time to do the important act, like looking for your favorite publication and reading a reserve. Beside you can solve your short lived problem; you can add your knowledge by the reserve entitled Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science). Try to make book Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) as your pal. It means that it can for being your friend when you really feel alone and beside that of course make you smarter than before. Yeah, it is very fortunated in your case. The book makes you much more confidence because you can know almost everything by the book. So , let us make new experience as well as knowledge with this book.

Debra Durso:

The book Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) make one feel enjoy for your spare time. You may use to make your capable considerably more increase. Book can for being your best friend when you getting strain or having big problem using your subject. If you can make reading through a book Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) for being your habit, you can get considerably more advantages, like add your personal capable, increase your knowledge about a number of or all subjects. You can know everything if you like start and read a reserve Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science). Kinds of book are a lot of. It means that, science e-book or encyclopedia or other individuals. So , how do you think about this publication?

Roosevelt Alday:

As people who live in the actual modest era should be revise about what going on or facts even knowledge to make all of them keep up with the era that is certainly always change and move ahead. Some of you maybe will certainly update themselves by looking at books. It is a good choice for you personally but the problems coming to anyone is you don't know which you should start with. This Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) is our recommendation to make you keep up with the world. Why, because book serves what you want and want in this era.

Marian Knight:

Are you kind of hectic person, only have 10 or even 15 minute in your day time to upgrading your mind talent or thinking skill actually analytical thinking? Then you are having problem with the book than can satisfy your limited time to read it because pretty much everything time you only find book that need more time to be learn. Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) can be your answer since it can be read by you actually who have those short free time problems.
