Head First C

David Griffiths, Dawn Griffiths

Head First C David Griffiths, Dawn Griffiths

Ever wished there was an easier way to learn C from a book? *Head First C* is a complete learning experience that will show you how to create programs in the C language. This book helps you learn the C language with a unique method that goes beyond syntax and how-to manuals and helps you understand how to be a great programmer. You'll learn key areas such as language basics, pointers and pointer arithmetic, and dynamic memory management, and with advanced topics such as multi-threading and network programming, *Head First C* can be used as an accessible text book for a college-level course.

Also, like a college course, the book features labs: projects intended to stretch your abilities, test your new skills, and build confidence. You'll go beyond the basics of the language and learn how to use the compiler, the make tool and the archiver to tackle real-world problems.

We think your time is too valuable to waste struggling with new concepts. Using the latest research in cognitive science and learning theory to craft a multi-sensory learning experience, *Head First C* uses a visually rich format designed for the way your brain works, not a text-heavy approach that puts you to sleep.
