**Partnership of Peril: Psychopathic and Authoritarian Influences in Politics. How this partnership subverts our democracy, destroys our environment and renders government dysfunctional.** Michael Dobkevich

'Partnership of Peril' presents an original analysis which explores our underlying political dysfunction, economic problems and environmental crisis. Though written before the Donald Trump phenomenon, it presents a clear explanation of the psychology and political strategy behind his popularity and rise to political influence. Building on the ideas of Carl Jung, Erich Fromm, and Theodor Adorno as well as contemporary political writers such as Thomas Frank and George Lakoff, political and social conflicts are examined through the lens of depth psychology. This book looks at the historic battle among three archetypal models of behavior. These models find expression in three personality types: the psychopathic, the authoritarian, and the progressive. The psychopathic and authoritarian types have forged an alliance, 'The Partnership of Peril.' The consequences of this lethal union, how it threatens our democracy and the very survival of our environment, the psycho-dynamics among the three forces, and actions that can be taken to counteract the threatening partnership all make this book a captivating and relevant read.
